PROJECTS

- Frontend Project (First Year):** Created a responsive social media profile page using HTML and CSS. This project showcases user profiles, posts, interests, and upcoming events, and is designed to work well on both desktop and mobile devices.
- Frontend Project (Second Year):** Developed e-commerce website frontend inspired by Amazon.in home page using HTML, CSS, and JavaScript.
- Online Reservation System (Second Year):** Developed a college mini-project using HTML, CSS, Java Servlets, and MySQL for backend database management. Implemented booking functionality for buses from one location to another
- Computer Classes Web App (Third Year):** I developed a web application for Shreenathji Computer Classes, integrating features such as attendance management, fee tracking, and assignment quizzes. The project is live and accessible online, offering real-time attendance monitoring, fee management, and interactive quizzes for students. Upon completion, I received a certificate affirming my expertise in developing comprehensive web applications.
